## NOTIFICATIONS.

### ARRIVALS.

August 10, WHAMPOA, British steamer, 1,000, G. Fawcett, Foochow 8th August, General.—BUTTERFIELD & SWINEY.

August 10, GLENDON, British steamer, 1,500, J. A. Hodges, Batavia 1st July, Petroleum.

JARDINE, MATHESON & CO.

August 10, FOKEIN, British steamer, 600, J. Lewis, Tamsui 5th August, Amoy 8th, and Swatow 9th, General—DOUGLAS LA PRAIRIE & CO.

August 10, SOOCHEW, British steamer, 327, T. Rowie, Pakhoi 7th August, and Hoihow 9th, General—CHINESE.

### CLEARANCES.

AT THE HARBOURMASTER'S OFFICE.

10th AUGUST

Cerdigshire, British str., for Nagasaki.

Tannadice, British str., for Port Darwin.

Trivis, German str., for Sigon.

Ningpo, British str., for Shanghai.

### DEPARTURES.

August 10, BENARZ, British str., for Bangkok.

August 10, VICTORIA, British str., for Nagasaki.

August 10, THIUMPH, German str., for Tournai.

August 10, ACTIV, Danish str., for Hoihow.

August 10, HUNTER, German str., for Tientsin.

August 10, HAMPION, British str., for Swatow.

August 10, KIRKHO, British str., for Shanghai.

### PASSENGERS ARRIVED.

Per Souchow, etc., from Pakhoi, &c.—198 Chinese.

Per Fokien, str., from Tamsui, &c.—Mrs. J. Dickie, and 85 Chinese.

DEPARTED.

Per Activa, str., for Hoihow.—2 boys of Mr. Wandersleb.

### TO DEPART.

Per Micrope, str., from Hongkong—For Singapore—Col and Mrs. Storey.

Capt. Ah Qui and servant, Mr. and Mrs. Chee Huandien and their son, Eng Hin, Young Hoong and Kuan Theung Noh, servants.

For London—Mr. and Mrs. Tobias Pin, children and amah, Mr. Ferguson, Lieut. Vigoura, Miss A. Talbot.

### REPORTS.

The British steamer Glendower, from Batavia 1st July, reports had variable weather all through the voyage.

The British steamer Whampoa, from Foochow 8th August, reports had light variable winds and cloudy weather. Shipping in port—Changsha and Fuzhou.

HONGKONG, AUGUST 11TH, 1888.

Now that the Taku-Tientsin Railway is on the point of completion it is interesting to examine the reasons which have for so many years delayed the opening of this and other lines of mail in China. What were, what indeed, still largely are, the Chinese objections to railways? Most Europeans in the Far East, many even of those "twenty years in the country speak the language men" so unnecessarily gibeted by Mr. Coxon, would reply: First and foremost, their foreign origin; next after that, the injury to graves and dwelling houses; lastly, loss of employment to boatmen, carters, and the like. These objections are undoubtedly urged, and with considerable force, but they are, now-a-days at any rate, by no means the only objections, or even the most important. A trustworthy clue to Chinese sentiment in this matter is afforded by the Essays on the advantages and disadvantages of Railways sent to the Chinese Polytechnic Institute of Shanghai, to compete for the prize offered in the winter competition of 1886-7. These, or rather the first three of these, have been printed by the Institute in a volume, a short notice of which appeared in the N. C. Daily News a few weeks ago. The third, and by far the most succinct, of the Essays, gives, in the compact and balanced form so dear to Chinese writers, a list of the objections commonly urged. Four evil effects, he says, a railway is liable to bring on the people, and four on the Government. Land must be bought to build it, and this would make many people homeless; carts and horses will be no longer needed, so that men must be thrown out of employment; commodities would be more freely distributed, and thus liable of extravagance and waste contracted; travelling would be facilitated, to the encouragement of wandering and idleness. So much for its effects on the people; as regards the Government its results would be, that it would render the advance of an enemy more rapid, and less easily opposed; that foreigners would be able to travel in the interior and spy out its condition; that foreign debts would be contracted beyond China's power to pay; and that the police force would no longer be able to guard against sudden raid by brigands. After all, this essayist can only find eight objections to tackle; but the winner of the first prize brings forward no less than twenty-five. Some of these are identical with those given above; and of the twenty-five few would suffice to set up by the writer for the pleasure (great me to your connoisseurs) of knocking them down again. Many, however, are quaint enough to deserve mention. Take, for instance, the third objection propounded by his opponents, that "if the blasting or tunnelling of mountains, whose sanctity has been attested by centuries, be allowed, the offended elms and spruces would take revenge by bringing drought or flood on the land." This delicious piece of reasoning is only equalled by the essayist's retort: that all such spruces and elms are subject to His Imperial Majesty of China, once their August Master has made up his celestial mind and has resolved to open silkworms, the spruces as foreseen will, so far from taking offence, gladly aid and forward the work. Then again, there is an objection based on the quantity of garments a Chinese traveller wears. "A railway carriage large enough to seat ten westerners

would scarcely hold five Chinamen." This would hold good more especially in North China, where in winter the benighted inhabitants appear like men of their own waddled coats, as red, and almost as bound proof, as so many sand bags. In South China the difficulty assumed another shape: "the traveller takes with him such an amount of luggage in the form of boxes and trunks." Of course in the West nobody, not even maternitatis, on her way to the sea side, takes trunks and boxes. A Chinaman, however, as anyone who has studied him on board, an emigrant steamer will, at once agree, clings like a barnacle to his portable property and a demand on the part of the railway officials that he should put his luggage in the van would meet with firm if not clamorous resistance. The essayist does indeed suggest the van as a solution to this difficulty, but his main argument is that the existence of railways would work such a change in the manners and customs of Chinese innkeepers that these last would come to provide bedding, cooking utensils, food, and provider, so that the Chinese traveller need no longer carry about with him his mattress and frying pan. Western travellers might possibly consider the remedy worse than the disease, and prefer the present cleanly if clumsy system to the frowny convenience of a landlord's bedchamber.

Another objection to railways is drawn from an alleged difference in the propensities of westerners and Chinamen. The former, the objector points out, are fond of travelling; moreover, their womenkind like no pleasure in staying at home. If a western lady goes out, her husband must accompany her and the children must go too. This fondness for roving naturally tends to make fares excessive, and inn charges exorbitant. Now, in China economy is closely studied; and be succeeded by a most agreeable cool and refreshing sense of comfort and ease.

A Light Dose of WATSON'S SALINE  
APERIENT in the morning is also recom-  
mended as a detergent.

HONGKONG, AUGUST 11TH, 1888.

Now that the Taku-Tientsin Railway is on the point of completion it is interesting to examine the reasons which have for so many years delayed the opening of this and other lines of mail in China. What were, what indeed, still largely are, the Chinese objections to railways? Most Europeans in the Far East, many even of those "twenty years in the country speak the

## NEWS FOR THE ENGLISH MAIL.

## LATE TELEGRAMS.

LONDON, 26th July.  
Mr. James O'Kelly, M.P. for North Roscommon, has been arrested in London and confined to Dublin for a special shooting at speech of the Emperor.

LONDON, 27th July.  
The Standard states that the Czar and the Emperor have arranged Austria as assenting that Prince Ferdinand shall be left unharmed until increasing internal complications compel him to abdicate, thus to interests and procure the election of a Prince acceptable to all.

LONDON, 28th July.  
The following is the result of the running for the Eclipse States.—

J. Orbit, 2nd, Osborn; S. Marley.  
London, 1st August.  
An angry feeling has arisen in Paris in consequence of reported French designs upon Tripoli. An official denial has been given to these reports and the note declares that the naval and military preparations of Italy aint that port.

In the House of Commons Mr. Parnell charged Mr. Chamberlain with betraying Cabinet secrets to himself and others who was a Member of the Crown.

Mr. Chamberlain repudiated the charge.

London, 6th August.  
The Paris strike is extending, and collisions with the police are frequent.

The white Phœbus is now believed to be Emil Pash.

It is reported that the Emperor William will visit Alsace and September and Vienna in October.

London, 7th August.  
Sir James Ferguson states that negotiations continue for the extension of a British protectorate over North Borneo, Sarawak, and Brunei. General Sheridan is dead.

THE HONGKONG, GINTON, AND MACAO STEAM-BOAT COMPANY, LIMITED.

The ordinary half-yearly meeting of the shareholders of the above Company was held on the 3rd inst. at the Company's Offices, Queen's Road. There were present Hon. R. Pyne (Chairman), Hon. B. Hall Irving, Messrs. R. L. (and A. G.) Gurney, Mr. J. A. Calvallo, J. H. Cox, A. S. Collier, P. Jordan, H. N. Mody, D. McCullagh, P. Henderson, E. B. Joyce, J. H. Manch, J. F. Rose, and T. Arnold (Secretary).

The SECRETARY having read the notice convening the meeting,

The CHAIRMAN said—Gentlemen, you have heard the notice read which called this meeting of the shareholders. The report you have before you for some time, and I think you are well acquainted with its contents. I need not therefore make many remarks thereon. The hope expressed by your directors at the last half yearly meeting is soon to, a certain extent, realised in so far that the gross earnings have increased some \$13,000. Unfortunately on the other side again you will see something to the effect that the shareholders have an expenditure of \$6,301.62. The cost of extending the wharf in Hongkong was a necessary matter, the wharf being too short, and this extension, of course, may be looked upon as increasing its value. The directors thought it advisable to deal with this matter, and the amount of additional money required for the wharf was calculated to have been \$16,146.62. The cost of extending the Macao line is no doubt desirable, but in the meantime we have got the Kuk-kiang, and if an opportunity occurs for making a fair sale of her it would exposit matters greatly in regard to the new boat. We do not think there is anything else requiring remark. You will see with the amount your directors have decided to put in the current expenses. With reference to a new boat, your directors seriously consider obtaining a new boat for the Macao line, but of the same as the last one. In proceeding with this matter they do not, however, intend to be too hasty, although they will still keep that end in view. We have written to England to obtain prices, and when we have received them we will then decide what to do. The cost of the new boat will stand at \$215,000, while there is \$40,000 for the equalisation of dividend. This I think is a fairly satisfactory position for the Company to be in. If we can have any remarks to make, I propose that the report and accounts be adopted.

A. S. COHEN seconded.

Carried unanimously.

The meeting adjourned.

J. Hall Irving and Mr. Bellows retire, but offer themselves for re-election.

Mr. A. S. Cohen proposed that Messrs. Bellows and Bellows be re-elected as directors.

Mr. CARVALHO seconded, and the proposition was carried nem. con.

The CHAIRMAN—We have next to elect two members. You will call for the Messrs. Gurney and Henderson offer themselves for the post, and I have much pleasure in proposing their election. Mr. E. B. JOXEY seconded.

The CHAIRMAN—Gentlemen, I have nothing more to say except to inform you that the dividend warrants will be ready to-morrow morning.

The Board proposed a vote of thanks to the Board of Directors, the Chairman, and the Secretary, which was carried by acclamation; and the Chairman having returned thanks on their behalf, the meeting was closed.

and written in Latin as well as English. That such names as Michael and Julian are to be the democratic proof that Christian names were used at that time. It seems, however, that the names in Latin were written by some Italian of that age, as for Han, we have Fara. It is a very rare document and is in a perfect state of preservation. From this letter it is evident a 40 years previous to the arrival of the Ambassador of Portugal, the Kyushu islands had already sent messengers to the Emperor.

The fact that they were real believers is shown by the fact that the Ambassador all had Christian names. The difficulty of sea voyaging in those days may be inferred from the uncertainty that these ambassadors had to face in their return to their own land. It is no mere coincidence that these foreign envoys had been exchanged by the Chinese for the Omura prince to whom the Emperor had been granted the title of the Omura, and one of his ministers had an intimate knowledge of the Christian principles mentioned.

Mr. Soli concludes his account of the discovery with a description of a picture of Illeskuwa and certain other paintings now in the possession of an Italian noble—Japan Mats.

From the same, the directors recommend the payment of one pound and ten shillings per share, which will absorb \$1,000.

The difference in exchange between 40%, the rate at which the dividends are paid, and 35%, the rate at which the dividends are paid, is due to the fact that the dividends are paid in gold.

They recommend transferring \$100,000 of the reserve fund which will stand at \$1,000,000.

The balance of \$10,000 is to be carried forward for future taking into account the representations of the Board of Directors.

ADVISOR.

The accounts have been audited by the hon. auditors, Messrs. Myres and Mr. Fullerton Henderson.
